Superior training to improve CPR and AED skills retention

Did you know that the current survival rate for sudden cardiac arrest is less than 7%? Dramatically improve those odds with training that prepares your students to respond to choking, breathing and cardiac emergencies. Students will also learn how to use an automated external defibrillation unit (AED) in conjunction with CPR.

Participants Learn How To:

- ✓ Take action in a medical emergency
- ✓ Assess the victim
- ✓ Provide basic life support, including airway management, breathing and circulation
- ✓ Use an AED

**We never charge processing fees
for the nationally recognized NSC
Course Completion Card - required
for OSHA compliance!**
